The Nostalgias exhibition explores different types of longing for place, home and imaginary homelands. Focusing on photographic and sensory work that examines different interpretations, the exhibition is not in itself nostalgic, but investigates how nostalgia has manifested itself in contemporary art practice.

Curated to coincide with the Nostalgias: Visualising Longing Conference, which takes place at the Winter Gardens Margate on 9th and 10th of November. This exhibition brings together the work of 10 artists, offering a unique range of questions and responses to what it means to long for another place.
